Artist List Announced for Portland2016 Biennial

Curator Michelle Grabner has announced the list of artists participating in this summer's Portland2016 Biennial. The festival will take place at the Disjecta Contemporary Art Center, though a press release for the event also notes that it will be "activating locations around the state," to draw in artists and audience from beyond Portland.

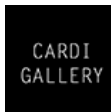

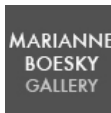

Grabner, who considered more than four hundred artist submissions and conducted more than one hundred studio visits, chose a total of thirty-four artists or teams. The additional seventy-one artists who received studio visits will be invited to participate in Salon: Portland2016 Biennial, The Studio Visits, a curatorial index highlighting Oregon-based art practices.

"From La Grande to Ashland, I was looking for work that addressed global realities as much as it embraced radical regionalism," said Grabner.
